Pulsed Flow-Thru Humidifier

Exclusive Features:

- *Uses 80% less water*
- *Compact size for easy fit*

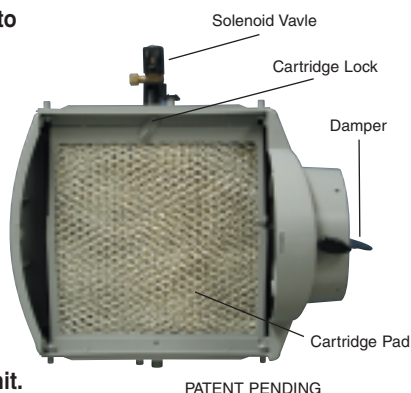

PATENT PENDING

***The innovative and
inexpensive way to comfort***

Available only through HVAC wholesalers

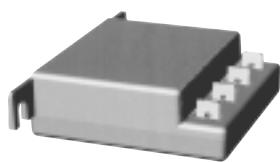

Pulsed Flow-thru HUMIDIFIER

This unique electronically pulsed flow-thru humidifier reduces water consumption by up to 80%. The electronic controller pulses the solenoid water supply valve for a period of 4 seconds ON and 30 seconds OFF. This allows the evaporator pad to be fully saturated while drastically limiting the water wasted through the drain. This unique approach greatly improves the unit performance by allowing a higher average temperature on the evaporator pad, and makes the Pulsed Flow-Thru the most environmentally friendly unit.

Features

- Suits any forced warm air heating system
- Left or right side flexible duct installation
- Mounts on either the supply or return duct (return duct recommended)
- Easily removable access door for quick inspection
- Components easily accessible for maintenance
- Lifetime warranty on plastic door and body
- Cartridge pad coated for maximum evaporation
- Electronic controller
- Electric solenoid valve, 6 watts, 24 volts AC
- Transformer 120/24 volts AC
- Universal mount humidistat
- By-pass kit and damper supplied

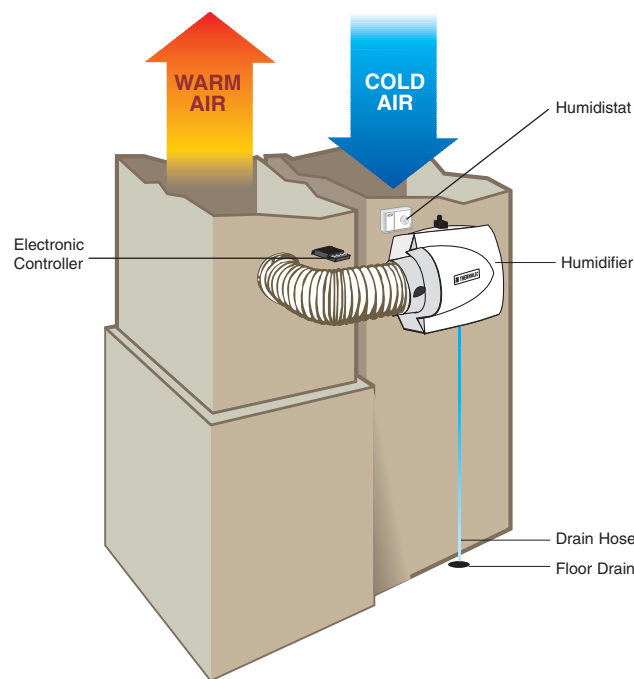

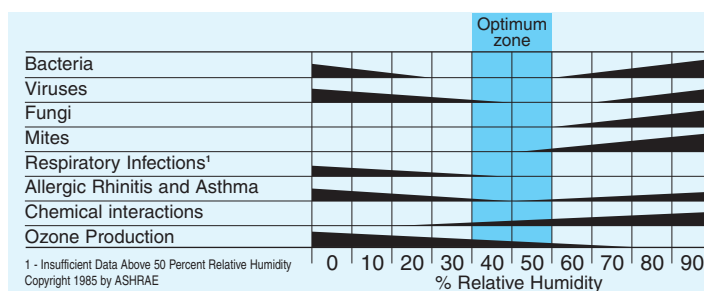

Electronic controller reduces water consumption by 80% and improves unit performance.

Humidifying Capacity

PLENUM TEMP. (°F)	80	100	120	140	160
GALLONS PER DAY	4.5	8.5	13.0	15.5	23.0

Warranty

This humidifier is guaranteed against any defects in material and workmanship, under normal use, for one (1) year from the date of purchase. The frame and door are guaranteed for life against defects in material and workmanship, under normal use. This warranty applies only if the unit is properly installed and operated according to the instructions provided with this product. This warranty will not cover defects due to misuse or faulty installation. The manufacturer will not be held responsible for any damage caused by water leaking from this installation.

If warranty service is required during the warranty period, the distributor will, at its sole discretion, repair or replace the product, without charge, upon delivery of the product to the store where it was purchased, with proof of purchase.
